Subject

Granting authorization to use the designation "research university"

Dear Rector,

according to § 113ah par. 5 of Act No. 131/2002 Coll. on Universities and on Amendments and Supplements to Certain Acts, as amended (hereinafter referred to as the "Act"), I grant the Technical University in Zvolen authorization to use the designation "research university" valid until the publication of the first periodic evaluation of the research, development, artistic and other creative activities of the university according to § 88a of the Act.

This authorization is granted to you following a positive evaluation of the fulfilment of the temporary criteria for granting authorization to use the designation "research university" (hereinafter referred to as the "criteria") approved on 26 July 2019, when the numerically expressed profile of the quality of research activity of your university is 3.497, which is more than the criteria required 3.460. As part of the evaluation of the creative activity of the university carried out as part of the comprehensive accreditation of the university's activities, your university was evaluated in eight areas of research, while the criteria require evaluation in at least three areas of research.

Dear Rector, I believe you will succeed in continuing to develop the quality of your university's creative activity, successfully transferring its results to higher education, and improving Slovakia's position in the international research space.

With best regards

Martina Lubyová
Minister
